# **DANNENBAUM**

---

Dannenbaum Engineering is a Texas-based consulting engineering firm with 8 regional offices. We have been making our clients successful since 1945 - evident in the enduring relationships created and long-lived projects constructed. Dannenbaum is one of the State's premier firms for planning, design and construction management of all types of public infrastructure, with expertise in Transportation, Water, Wastewater, Land Development, Hydrology/Hydraulics, Airports, Ports/Harbors, Rail, Federal, GIS and Surveying. By adding innovation to solid engineering solutions, Dannenbaum is well known for our ability to develop personalized responses to client's needs.

**EA Engineering, Science,  
and Technology, Inc., PBC**

**EA Engineering, Science, and Technology, Inc., PBC (EA)**

A 100% ESOP-owned, public benefit corporation, EA provides interdisciplinary environmental services to a wide range of clients. On behalf of the federal government, EA has investigated, assessed, and mitigated impacts to the environment at thousands of sites across the United States and abroad. EA has conducted the majority of this work under contracts set-aside for Small Businesses under NAICS Code 562910. Headquartered in Hunt Valley, Maryland, EA employs more than 400 professionals through a network of 23 offices. In business for more than 42 years, EA has earned an outstanding reputation. For more information about EA, visit [www.eaest.com](http://www.eaest.com).
