SAME Fort Worth Featured Sustaining Member Firms – May 2017

Farnsworth Group traces its origins back to the early 1890's, when a local land surveyor traveled from community to community providing land surveying services for local municipalities. Farnsworth Group's earliest employees operated under the premise that "the client is always our first priority" and now a century later, that same dedication to clients continues to be our hallmark. With offices in 19 cities throughout the country, we have entered the 21st century as a multidiscipline leader in all facets of design and technical consulting. In 2014, we established our local Frisco presence in an effort to expand our services into the North Texas marketplace and bring forward our strong, long-standing municipal expertise and experience for clients in our local area.

Halff Associates Inc. is an employee-owned, full-service engineering and architecture consulting firm headquartered in Richardson. Halff provides services throughout the Southwest from 15 offices in Texas, Oklahoma, Arkansas and Louisiana. Our staff of more than 640 includes engineers, architects, planners, scientists and surveyors. Halff was founded in Dallas in 1950 by Albert H. Halff, PhD-Eng., PE, and today our firm preserves Dr. Halff's legacy of character, integrity, dedication to client service and commitment to quality. We are a growing, progressive firm with a reputation for providing creative solutions.

SAME Fort Worth Featured Sustaining Member Firms – May 2017

Jacobs is one of the world's largest and most diverse providers of technical, professional, and construction services, including all aspects of architecture, engineering and construction, operations and maintenance, as well as scientific and specialty consulting. We serve a broad range of companies and organizations, including industrial, commercial, and government clients across multiple markets and geographies. In 2016 we announced our headquarter relocation to Dallas. For many years Pasadena successfully served as Jacobs' headquarters since it was founded in 1947 by Dr. Joseph J. Jacobs. However, our new location strengthens Jacobs' ability to attract top talent and is more accessible to our valued global clients. Our offices in Fort Worth and Dallas are focused on our Buildings & Infrastructure line of business, maintaining a leading position in the transportation, water, healthcare, education and government buildings sectors by driving superior value, global connectivity and the delivery of excellent solutions to our clients around the world. Throughout the past year, we have successfully grown our position and continue to target opportunities to expand our reach. We have solidified our reputation as a company that can build large complex facilities, and provide strong advisory services and alternative delivery models. Jacobs' specialized consulting teams for asset management, site development, laboratory planning, commissioning, procurement, energy & power, and workplace strategy help determine the most appropriate design and construction options, improve operational efficiencies, and advance environmental goals. Find out more by visiting our website at www.jacobs.com or contact Bob Besancon at Robert.besancon@jacobs.com.

HUITT-ZOLLARS

Huitt-Zollars is a full-service multi-discipline architectural and engineering firm, with extensive expertise in planning, design, asset management, program management, and construction management. Established in 1975, Huitt-Zollars has expanded to 18 branch offices in 8 states and three international offices. Headquartered in Dallas, the firm is ranked among the nation's top design firms by Engineering News-Record.

Purpose:

To constantly improve the quality of life in our world

Core Values:

- To achieve the highest level of quality in everything we do
- To always conduct ourselves with consummate integrity
- To achieve client satisfaction through uncompromised personal service
- To provide the appropriate environment for people to work, grow, and prosper
- To maintain consistent growth and a reasonable profit in order to perpetuate a healthy company to always strive to advance our services to new horizons

Huitt-Zollars offers large firm resources and small firm attention to detail to our Federal clients, many of whom have secured our services through long-term indefinite delivery, or task order contracts. In addition to multi-discipline design, construction management and asset management services, we excel in alternative delivery methodologies such as design-build and are ISO-9001:2008 compliant.

Our Federal practice has been a vital part of our core business for 40 years. We operate with strong project manager-led teams and well-established project management policies, and are proficient in Federal procedures for documentation and control. Whether the project is a military facility for a defense agency, a government office building for GSA, or a cemetery for the Department of Veterans Affairs, Huitt-Zollars can deliver a unique and individual solution.

After 40 years of ADVANCEDDESIGNSM, we're just getting started. For information about what we can do for you, visit our website at www.huitt-zollars.com.
