SAME Fort Worth Featured Sustaining Member Firms – August 2017

Mead&Hunt

Mead & Hunt is a mid-sized, multi-discipline architectural, engineering and planning firm. Continually ranked in *Engineering News Record's* Top Design Firm list, our company has successfully completed projects for a wide range of clients, including federal, state, municipal, and commercial.

Specializing in federal work for more than 65 years, Mead & Hunt understands the uniqueness of our military clients' missions and has a team devoted solely to our federal clients. Our staff—many of whom are former military personnel—are completely conversant in military operations, installation development, water resources, dams, hydropower, regulatory compliance, environmental stewardship and airfield pavements and systems.

Mason&Hanger

A Day & Zimmermann Company

Mason & Hanger (M&H), a Day & Zimmermann company, is dedicated to providing architectural and engineering services. Specializing in the worldwide design of secure, mission-driven facilities, Mason & Hanger proudly serves as a partner to the United States Government for nearly two centuries. M&H is a trusted partner of the U.S. Department of Defense (Army, Navy, Air Force, Marines and National Guard), Department of Homeland Security, Department of State, Department of Energy, and the Intelligence Community, among other government agencies critical to the U.S. National Security Mission. With offices in Lexington, Kentucky and Richmond, Virginia Beach, and Woodbridge, Virginia, the Company has ranked nationally among the Top 15 A/E firms in Government Building Design. Mason & Hanger has a rich history covering nearly 200 years, as the oldest operating A/E firm in the United States and has worked with the Fort Worth District USACE for over 20 years. Over this 20-year span M&H has provided A/E design services, studies, assessments, energy analyses, value engineering and master planning services for a wide variety of projects across Fort Worth District geographic mission. For additional information please visit our website at www.masonandhanger.com or contact Stephen Scott at stephen.scott@masonandhanger.com.

SAME Fort Worth Featured Sustaining Member Firms – August 2017

PARSONS

Parsons is a technology-driven engineering services firm with more than 70 years of experience in the engineering, construction, technical, and professional services industries. The corporation is a leader in many diversified markets with a focus on infrastructure, defense, and construction. Parsons delivers design/design-build, program/construction management, systems design/engineering, cyber/converged security, and other professional services packaged in innovative alternative delivery methods to federal, regional, and local government agencies, as well as to private industrial customers worldwide.

All across the world, at every time of day, Parsons is keeping people moving toward a brighter, safer world. For more about Parsons, please visit www.parsons.com.

O'BrienEngineering, Inc.

specializing in the complex™

O'Brien Engineering, Inc. (OEI) was founded 30 years ago in the Dallas/Fort Worth metroplex as a water resources firm specializing in surface water analysis including drainage design, floodplain management, dam rehabilitation, and strategic regulatory permitting. We continue to remain true to these core competencies today while we have diversified with program and project management, engineering, environmental, and support services to better serve our clients' needs. OEI's prime contracts include two indefinite quantity contracts, both serving the US Army Corps of Engineers Fort Worth District: 5-year Architecture/Engineering IDIQ for the Engineering and Construction Support Office and 5-year Real Estate Support Services MATOC. OEI is a certified Service Disabled Veteran Owned Small Business (SDVOSB), Texas HUB, and TxDOT SBE firm. Actively supporting the SAME Fort Worth Post for nearly 15 years, we are proud of the many opportunities we have had to be involved, serving the Post and its mission. Through our involvement we have been able to work with some great people, firms, municipalities, and government entities (including Fort Worth District, other USACE Districts, DHS (CBP and FEMA), the VA, USDA, etc). For more information contact Sarah Cole at scole@obrieneng.com, 972 233 2288, or check out our new website: obrieneng.com.

SAME Fort Worth Featured Sustaining Member Firms – August 2017

Neel-Schaffer is a multi-disciplined engineering, planning and surveying firm with approximately 500 professional and technical employees. Our philosophy is to provide exceptional engineering services on time and within budget to produce satisfied and repeat clients. Neel-Schaffer's core disciplines include civil, structural, hydraulic, water/wastewater, storm water, traffic/transportation, and aviation engineering.

Over the last three decades, Neel-Schaffer has provided services for 21 USACE contracts involving some 130 assignments, including numerous repeat projects in several districts. Neel-Schaffer has met all performance schedules on our USACE contracts and we have been recommended for future contracts in all our USACE Performance Evaluations.
