Multiple DODAACs

Q: What is a DODAAC?

A: The Department of Defense Activity Address Code is a 6-position code that uniquely identifies an activity that has the authority to CONTRACT

Typical Ft Worth RFP #:

W9126G - 22 - R - 0001

This character is issued sequentially

This character indicates the type of action:
R = RFP, B = IFB, D = IDIQ, C = Contract, etc

This character indicates the fiscal year the action was created, advertised, or awarded

W9126 is the Fort Worth District DODAAC, every RFP, RFQ, IFB, Contract, etc we issue starts with our DODAAC. It lets all parties know who issued the action.

GONE...

Traditionally, SWF used one DODAAC (W9126G). SWF has added an IIS specific DODAAC (W518EA)

IIS actions will begin migrating to the new DODAAC but actions in progress will retain the old DODAAC

Military and Civil actions will continue to use W9126G

What this means to Contractors:

- When searching for Fort Worth specific opportunities in SAM, search under both DODAACs to see all our RFPs, RFQs and IFBs.
- Consider updating any subscriptions or registries to include Fort Worth's second DODAAC.
