- **Commercial Equipment**

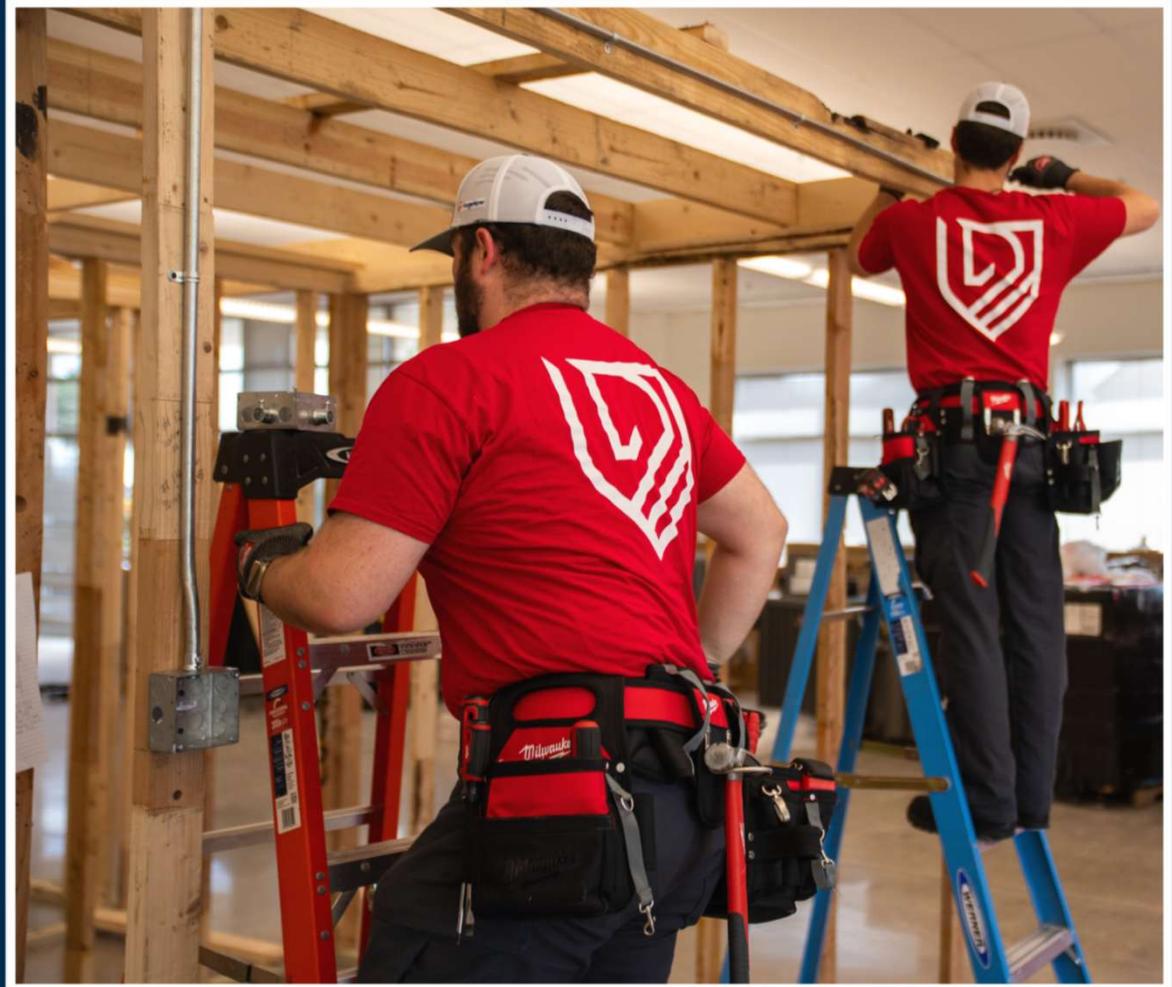

HVAC & Facilities Maintenance

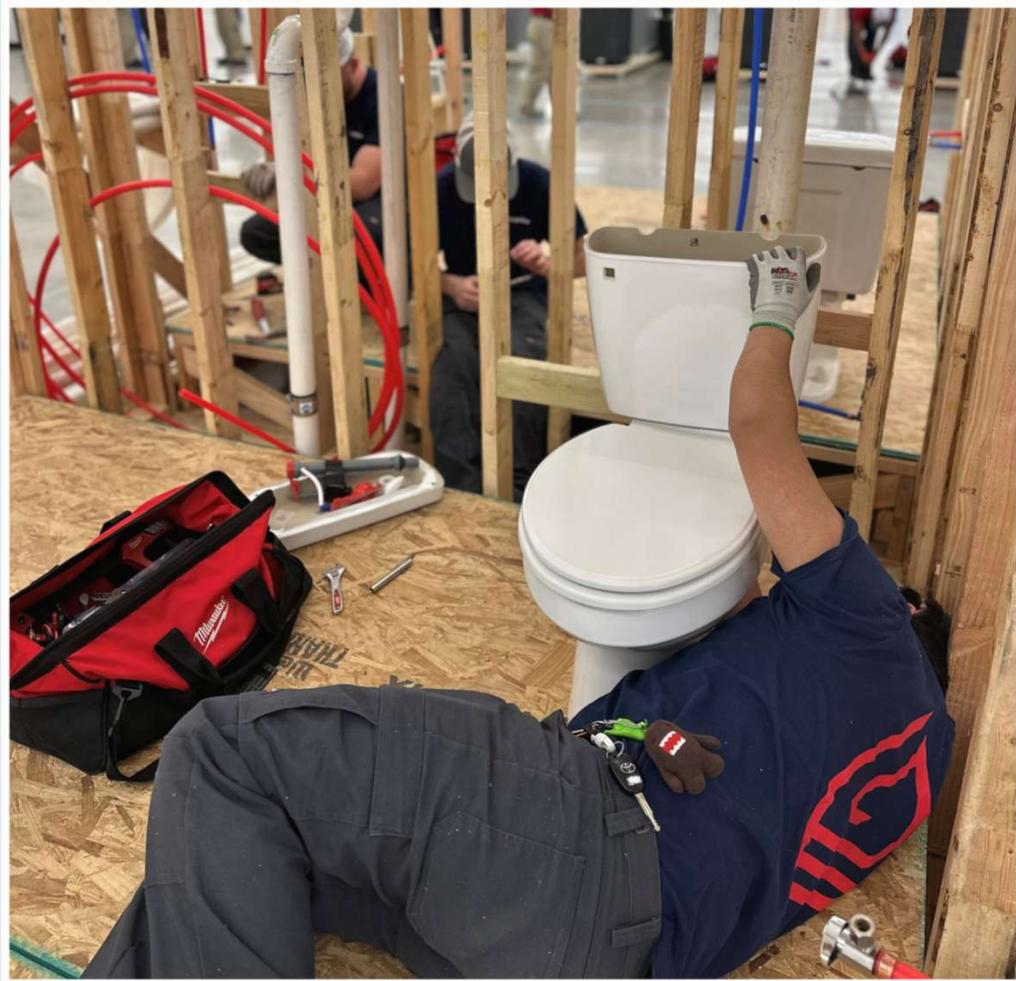

Plumbing & Electrical

Plumbing & Facilities Maintenance

Benefits of the Trades

Luke Carter, Former Army EOD Staff Sergeant

Andre Young, 20, Former Warehouse Employee

- Job Stability & High Demand
- Recession-Proof
- Long-Term Career Flexibility
- Practical & Valuable Problem-Solving
- Competitive Pay & Benefits
- Path to Entrepreneurship

Nick Grant • You
Field Operations Manager at ForgeNow | Army EOD Veteran
1yr • 🔒

In 2021, I deployed to Syria as a Platoon Leader alongside six EOD teams, supporting a company from 5th Special Forces Group. Among my standout team leaders was Staff Sergeant Luke Carter, a prior infantryman with combat experience. Luke was strategically assigned to an Operational Detachment Alpha (ODA) that operated at a high tempo and earned a Bronze Star Medal for his exceptional performance as a Bomb Disposal Technician.

As a dedicated husband and father of five, Luke made the courageous decision to transition from a career in bomb disposal to pursuing his passion for electrical work. While stationed at [Fort Bragg](#), he utilized [DoD-SkillBridge](#) to enroll in our 7-week electrical training course at [ForgeNow](#) during his final months of service.

Now residing in Carson City, Nevada, Luke works as an Electrical Apprentice at [The Happy Outlet](#). His journey from Bomb Disposal Technician to Electrician is a testament to his commitment to serve his community in a fulfilling new role. I'm proud of Luke's accomplishments and am excited to see him thrive in his career as an Electrician!
